

SEAMAX SHIP MANAGEMENT LLC

Offshore Operations And Maintenance

Introduction

Welcome to Sea Max Ship Management, Offshore Operation and Maintenance LLC.

SEAMAX is an ISM Safety Management System Certified Company, incorporated in 2008 with the aim of been a quality service provider to the International Offshore Oil and Gas Industries.

Our services cover all aspects of Offshore Operations from Chartering, Ship Management (commercial & technical), Ship repairs and offshore operations and maintenance solutions incorporating integrated design, structural fabrication, repairs and Installation in the field.

Sea Max has been able to strengthen our position by representing various vessel owners with objective of providing marine and offshore and support for various Operations.

The fleet of vessels we have on our books ranges from Accommodation Barges, Construction Barges, Anchor Handling, Dive Support Vessels (DP 1 – DP2) Tugs, Supply Vessels, Fast Crew boats, Utility Survey Vessel, Safety Standby Vessels, Offshore Barges and Landing crafts, but not limited to.

About Us

Established in UAE and India in 2008 as a Limited Liability Company

SEA MAX believes in developing relationships based on mutual trust and dependability. For these reasons we are able to meet Individual needs of our clients. With over 50 years of collective knowledge in the O&G Industry the Team at Sea Max understands that it is critical for us to deliver vessels, equipment, services and management support that fit our client's requirements.

SEA MAX Management team has been instrumental in improving the standards of vessels under our management and aligning their approach to offshore operations, management and safety values to meet industry standards in the region

Our services offered are for:

- ◆ Vessel Management
- ◆ Vessel Chartering – Sourcing - Supply
- ◆ Operations & Maintenance

SERVICES

Vessel Management

Sea Max specializes in providing a comprehensive support infrastructure for our clients as well as vessel owners. In order to achieve the high standards expect in Offshore O&G Industry we will assume full responsibility of the vessel on behalf of the Client / Owner and operate the vessel as part of our fleet.

This entails the following activities:

Crew Management:

Crew Changes – Crew Vetting – Crew Placement

Vessel Management:

Vessel Vetting – Planning Surveys - Inspections

Support Services:

Provision – Spares – Bunkering – All aspects of procurement

Safety:

HSEQ Vetting - Safety Management System Auditing

Vessel Chartering – Sourcing - Supply

BIMCO

Our belief at Sea Max is that due to the general nature of Offshore Operations it is important for our clients to be able to turn to us with a vessel requirement and walk away knowing that our team will go in to the market and Source Suitable Vessel. Therefore Sea Max Operates on a 5 step process:

1. Does the vessel meet our clients requirements.
2. Does the vessel have a good track record.
3. Is the vessel rate market competitive – Charter Rate – Fuel Consumption.
4. Does the Vessel service history presented match the log.
5. Finally are all the statutory certification in date.

Once the vessel is deemed suitable and meets the requirements issued for the Operation, only then will it be presented to the client.

All Charter Party Agreements are issued through the BIMCO Web Site.
